

The Isil Berat Barlan Awards

The Turkish Society of Immunology, together with Professor Talal Chatila from Harvard Medical School, is pleased to announce the following three awards in honour of our late colleague **Prof. Dr. Isil Berat Barlan**, a distinguished physician-scientist and an educator who made invaluable contributions to the fields of allergy and immunology in Turkey and internationally

The Isil Berat Barlan Award for Women Scholars in Immunology

 The award of **€1,500** will be presented to an eligible woman scholar under the age of 45 for excellence in immunology.

The Isil Berat Barlan Award in Primary immunodeficiency Diseases

 The award of **€750** will be presented, regardless of gender, to an eligible scholar under the age of 45 for excellence in research on the causes, diagnosis and/or treatment of primary immunodeficiency diseases.

The Isil Berat Barlan Award for Young Scientists in Immunology

 The award of **€750** will be presented, regardless of gender, to an eligible scholar under the age of 40 for excellence in immunology research.

These awards will be announced and presented during a ceremony at the **7th European Congress of Immunology** which will be held between the dates of **September 1-4, 2024 in Dublin, Ireland**

Applicants should send a cover letter, a CV and a summary of their research to gsaruhan@istanbul.edu.tr by 30.06.2024.
